

DAMAR[®]

LIGHTING THE WORLD BALLASTS

Magnetic Fluorescent

- Only supplier to include wiring accessories with each ballast.
- Available in a wide selection.
- Individually packaged.

Electronic Fluorescent

- Designed, in many applications, to fit in place of existing magnetic ballasts for easy retrofit.
- Available in a wide selection.
- Individually packaged.

Magnetic HID

- Metal Halide/Mercury Vapor and HPS
- Individually packaged kits include mounting hardware and wiring accessories.

HID Accessories

- Oil filled capacitors available in most applications.
- Available in a wide selection for most applications.
- Quartz restrike controllers also available.

FLUORESCENT MAGNETIC BALLAST

KEY TO HEADINGS

The reference material in these headings may help you in confirming magnetic fluorescent ballast specifications and in ordering products. Ballasts are grouped according to the type of lamp, number of lamps the ballast will operate and input voltage. The exception to this rule may occur with specialty items. For assistance, please contact your Damar representative.

Bulb:

The type of bulb the ballast will operate.

Volt:

Bulb electrical specs. are based on operating the bulb at the rated voltage.

Item No:

The Damar identification code.

Description:

The industry identification code.

Advance:

Cross reference for Advance.

Universal:

Cross reference for Universal.

Sylvania:

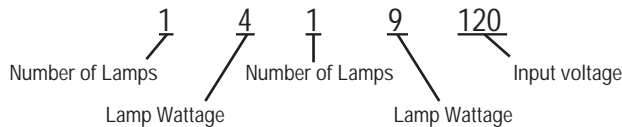

Cross reference for Sylvania.

Master Carton Label:

Number of units per case.

#:
Number of lamps the ballast will operate.

KEY TO HEADINGS

The reference material in these headings may help you in confirming HID magnetic ballast specifications and in ordering products. Ballasts are grouped by product line, then into groups according to the lamp wattage and primary ballast voltage. The exception to this rule may occur with specialty items.
